## AASHAN PARA

The sprawling grounds of SUT Academy of Medical Sciences is also home to some offbeat tourist spots. Legend has it that the famous poet laureate Kumaranasan visited a particular hill inside the campus on occasion. A steep climb from the parking area of this very institution leads to a flat rocky hillside, surrounded by spectacular views of the capital city. On top lies a quaint temple which opens only on special days, alongside a mystical pond which never dries up, not even in the summers.

*Presents to you*

# OTOCON 2026

24th January 2026

Lecture Hall, 4th Floor,  
Academic Block, SUTAMS, Vattappara

## Respected Doctors

For the budding otorhinolaryngologist the ear, with its complex anatomy has always been a mystery box. A comprehensive understanding of the subject requires an approach which includes basic anatomy and radiology progressing to the various pathologies. This new year we invite you to our beautiful campus to participate in an academic feast centred around otology. We aim to tackle all concepts of ear surgeries ranging from mastoidectomies to stapes surgeries. There will also be a PG quiz with attractive cash prizes.
